

# James C. Borders

M.S. CCC-SLP

I'm a speech pathologist and doctoral candidate at Teachers College, Columbia University. My research focuses on the rehabilitation of impairments in airway protection, namely cough (dystussia) and swallowing (dysphagia) dysfunction, to improve health outcomes and quality of life. I have worked clinically in inpatient and outpatient settings, specializing in the assessment and treatment of dysphagia across a variety of patient populations, including neurological, oncological, gastrointestinal, and respiratory disorders.
